

WE WANT YOUR FOOD SCRAPS!

THEY NOW GO IN YOUR GREEN CART

You can now compost food scraps – lots of different kinds – in your green curbside cart. It's part of our fulfillment of the new state climate law, and it means we'll cut methane, a greenhouse gas, which is 84 times more potent than carbon dioxide. Plus, your food scraps will become valuable compost!

FIND TIPS at WhatGoesWhere.info.

QUESTIONS?

Paper*

Metal

Glass

Liquids

Raw meat

Curbside food scrap collection is a collaborative effort to meet the requirements of the State's climate law, SB 1383, by the Monterey Regional Waste Management District; the cities of Carmel-by-the-Sea, Del Rey Oaks, Marina, Monterey, Pacific Grove, Sand City and Seaside; Monterey County; Pebble Beach Community Services District; your curbside service providers; and commercial composter, Keith Day Company.

Let's work together to renew our local resources and move towards a zero waste future.
